ERIK HAWK PRESENTS THE NEW ALBUM “ERIK HAWK & THE 12-BIT JUSTICE LEAGUE” — AVAILABLE NOW —

The new album by **Erik Hawk**, *Erik Hawk & The 12-Bit Justice League*, plays like the soundtrack to an action movie. An action movie for the dance floor! Every song could underscore a scene, from the opening action of “**Introductions**”, to the heroics of “**On a Mission**”, and the closing images of “**Into the Sunset**”. So, it comes as no surprise to learn that Hawk’s alter ego is composer/producer/remixer, **Erik Hawkins**. His music has been featured in countless film and television shows, including **Ugly Betty**, **Lie to Me**, **CSI:Miami**, **Burn Notice**, **Big Brother**, **Styl’D**, and **The Informers**.

One reviewer writes, “*What Hawk does well is to take an ever evolving genre like electronica and push the envelope even more with his superb beats and creative mixing.*”

Joining Hawk on his musical adventures are several critically acclaimed musicians, including **Gilli Moon** (vocals), **Christine Wu** (violin), **Lygeia Ferra** (vocals), **Craig Seganti** (trumpet), and the album was mastered by pioneering hip-hop producer/engineer **Michael Denten**. Hawk wrote/co-wrote, arranged, and produced all of the tracks. He plays guitar, keyboards, and sings throughout the album.

Hawk spent his college years running his own recording studio and producing hip-hop acts in the San Francisco, Bay Area. Later, he played the LA club circuit for years as a DJ and performing live electronic music whenever possible. He has worked with and remixed a variety of name artists. A firm believer of the saying, “share the knowledge”, Hawk has published several music production books, ***The Complete Guide to Remixing*** and ***Producing Drum Beats*** (Berklee Press) and he teaches music production courses at Berkleemusic.com.

For remixers and DJs, remixable music stems for “**Supar Star**” and “**Delicious People**” are available on the physical CD at **CD Baby**, cdbaby.com/cd/ErikHawk. You can also find Erik Hawk on **iTunes**, and on the Web at facebook.com/erikhawkmusic, twitter.com/erikhawk, and muzicali.com.
