

HOW MUCH IS MY SAPPHIRE WORTH?

Factors to Consider

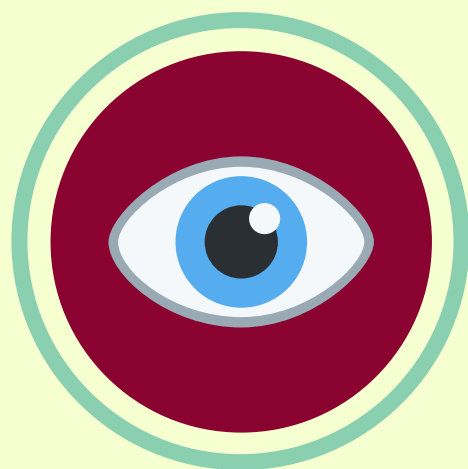

COLOR

Your sapphire is worth more if it has excellent saturation. The gemstone will show a pure bright color, without any brown or grey hues.

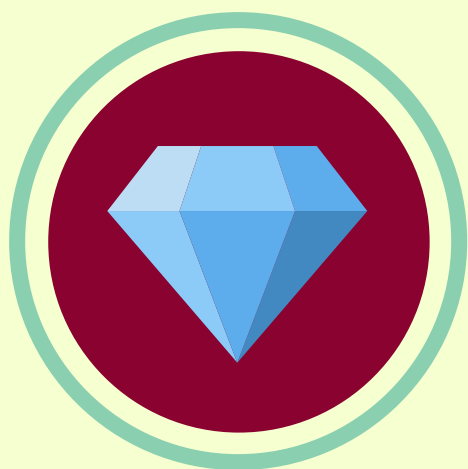

CLARITY

Your sapphire will be worth more if it has excellent clarity. The imperfections (aka inclusions) will be minor or non-existent.

CUT

Your sapphire will be worth more if it is perfectly cut. The cut of the stone will be not too shallow or deep, so that the color of the precious gem is maximized.

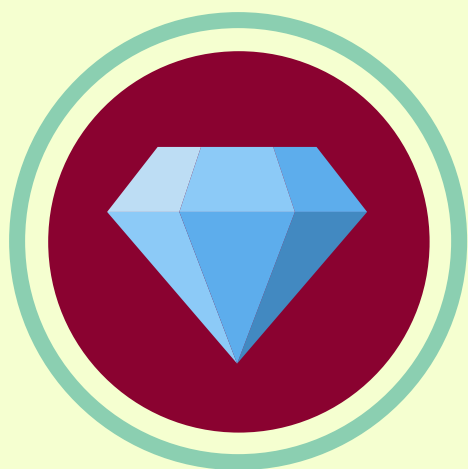

ORIGIN

Your sapphire will be worth more if its certified origin is from Kashmir (India), Mogok (Myanmar/Burma), or Sri Lanka.

APPRAISALS

Determining sapphire value can be a challenge. Contact Diamond Estate for a free market appraisal and cash offer.
