

# HOW TO SELL YOUR DIAMOND RING

LIKE A PRO

## STEP 1: GATHER DIAMOND DETAILS

### Read Your Diamond Grading Report

Note the important details of your diamond grading report, including cut, color, clarity, carat weight, and fluorescence. A GIA lab report is best.

## STEP 2: MATCH YOUR DIAMOND

### Check Prices With a Diamond Calculator

Take those details and use a free online diamond calculator to match your diamond with identical ones being sold today.

## STEP 3: CALCULATE A FAIR OFFER

### Do Some Simple Math

Take the lowest price you found for a diamond identical to yours and multiply it by .55 (55%). The resulting price is an approximate fair cash offer.

## STEP 4: SELL YOUR DIAMOND

### Choose The Right Diamond Buyer

If you don't have a friend or family member looking to buy a diamond, your best choice is an A+ BBB registered diamond buyer such as Diamond Estate, who charges no commission fees.
