

Leading Provider of Payroll & HR Solutions for Government Contractors.

WHO ARE WE? A PARTNER THAT UNDERSTANDS GOVCONS.

Through our years of serving a diverse group of government contractors, it became apparent that government contractors are severely underserved by national payroll providers. This realization led to the launch of GovConPay. GovConPay offers a level of focus, knowledge, and service that the industry has been desperately seeking. Our commitment and robust HCM technology combine payroll, HR, applicant tracking and onboarding, benefits, and compliance into one software that seamlessly unifies the experience with your mission-critical DCAA-compliant ERP system.

POWERED BY isolved

Delivered through the most powerful cloud computing environment, Microsoft Azure™

- Modern, scalable, & secure platform
- Supporting 100,000 employers & over 5 million employees nationwide

EMPLOY. ENABLE. EMPOWER.

Leverage GovConPay's isolved People Platform to easily and securely store and share employee data with a single-source database. Eliminate your paper HR files and streamline your HR workflows and compliance responsibilities. Turn your HR department into a strategy center that is focused on building culture and improving organizational efficiencies. GovConPay is the answer to all your payroll, HR, and compliance needs.

OUR MISSION.

GovConPay
Focus Matters

A PEOPLE PLATFORM TO DESTROY
MANUAL PROCESSES & DRIVE EFFICIENCY.

UNIFYING YOUR PROJECT-BASED ERP AND A ROBUST PEOPLE PLATFORM

Say goodbye to the days of balancing multiple software platforms that fail to communicate with each other. GovConPay recognizes that government contractors need a payroll and HR partner that understands the critical role that their DCAA-compliance ERP systems play in operating their business. Our clients rely on these systems — such as Deltek Costpoint, Unanet, Jamis, and PROCAS — and our custom integrations eliminate the inefficiencies of managing employee records in multiple systems.

The result? An HCM and ERP ecosystem that unifies the experience for your people and your projects.
